## PROJECT 365

---

Your Neighborhood Association aims to build and maintain a safe and welcoming space for all neighbors. Under this mission, Project 365 has been launched for 2020. The goal is to make our neighborhood safer by emphasizing porch lights and address numbers. Project 365 will make our neighborhood safer, one house at a time. Let's work together to accomplish this goal!

### Porch Lights

Porch lighting makes our neighborhood safer because crime is less likely to occur in lit areas. If your porch light needs replaced or repaired, let's make it happen and protect our neighborhood.

### Address Numbers

Address numbers not only make our homes look nice, but also keep us safe. If you need the police, fire department, or emergency medical service, these numbers help guide them to you as fast as possible.

### Curb Appeal

Lit neighborhoods deter crime, and address numbers help the police address crime sooner. Therefore, porch lighting and address numbers are our main priority for the year. However, if you have any small-scale projects relating to this goal, we may be able to help. Curb appeal projects include beautification efforts to make our properties as visually appealing and safe as possible. As neighbors, let's work together to make our homes beautiful and safe in 2020.
